**TO BUILD LARGE FACTORY**

This Building Will Cost Around \$50,000,  
the Directors are Some of Milwaukee's  
Most Noted Capitalists

On or about March 15 work on the  
erection of a \$50,000 factory building at  
the site of the old Thomas Brass &  
Iron Works plant will begin.

A deal has been practically closed  
whereby a corporation, operating under  
the laws of the State of Illinois, will  
procure a ten-year lease on the premises.  
The corporation will be known as the  
"Waukegan Motor Boat Company," and  
its directors will include a number  
of Milwaukee's most noted capitalists.  
John D. Williams, who holds a big in-  
terest in the property, Wednesday said:  
"The rental has been agreed upon, and  
it is our fault that the lease has not  
been signed before now. I expect that the  
lease will be signed today."

E. C. True, one of the big stockhold-  
ers in the company, is secretary of the  
American Timber Holding company, the  
largest of its kind in America. Al-  
bert Leeland, who will officiate as man-  
ager of the company, is one of Wiscon-  
sin's most noted construction engineers.  
The company will erect a one-story  
factory building, cost upwards of \$50,000.  
Work on the erection of the  
building may start next week. It is  
the desire of the manager of the com-  
pany to have a boat built for the motor  
boat show which is to be held in New  
York City.

The company will manufacture a 25-  
foot boat, cyprus hull with a mahogany  
deck. The fittings will be of copper.  
It will be equipped with a four-cylinder  
gasoline engine, and will have a guar-  
anteed speed of fifteen miles an hour.  
The boats manufactured by this com-  
pany will sell for \$400 f. o. b. Wauke-  
gan. Boats of a similar design are sell-  
ing for \$800 and \$1,000 all over the  
world.

Thirty men will be given employment  
when the building is completed.  
"We will employ only mechanics in  
our work," said one of the directors.  
The directors of the company wanted  
a twenty-five year lease on the prop-  
erty, but it is said ten years will be  
the life of the lease they have procured.  
The building to be constructed by the  
boat company will be of similar de-  
sign to the one destroyed by fire three  
years ago. It will be a one story struc-  
ture of brick.

**"MORE MONEY OR**  
**NO MILK" IS MILK**  
**PRODUCERS DEMAND**

"More money or no milk."  
This expresses the attitude of many  
farmers who are members of the Milk  
Producers' association as the time nears  
for the annual meeting, at which de-  
mands for the summer scale of prices  
will be formulated.

Directors of the association met in  
Chicago the first of the week and com-  
pleted arrangements for the annual  
session, which will be held Feb. 3, at  
the Sherman house. In the meantime  
local and county meetings will be held  
throughout the district. At the county  
meetings delegates will be chosen to at-  
tend the annual session.

Farmers generally believe that they  
should receive more than the prices  
paid last summer. The average for  
the six summer months was \$1.26 per  
hundred pounds. The present winter  
average is \$1.70. The radical ones are  
in favor of declining to make contracts  
with the big companies unless a higher  
price is paid. Others are not express-  
ing themselves.

It is said that many farmers will dis-  
continue selling to the big bottling  
companies unless the prices are boosted  
next contract day, believing they can  
make more money selling the cream or  
making it into butter and feeding the  
skimmed milk to hogs.

**A STRANGE COINCIDENCE**

Three Lived on Same Street Fifty Years  
and Died Within Three Days

A strange coincidence is seen in the  
death of three of the oldest and most  
prominent residents of Lake County at  
length within a period of three days.  
That they should have lived on the  
same street within a mile of each other  
for over half a century, and then that  
all should pass away at practically the  
same time is considered very remark-  
able. Two of them were relatives of  
Mrs. Charles Gorham of Waukegan.  
They were:

David Dwyer—65 years old, died on  
Thursday, funeral held Saturday at St.  
Patrick's church in Waukegan, with  
burial in the Mill Creek cemetery, Rev.  
Safford officiating.

Albert Corris—62 years old; died on  
Saturday at 12:30 o'clock; funeral at 1  
o'clock at the Russell church with burial  
in Oakdale cemetery, Rev. McGinnis of  
Waukegan officiating.

Mrs. Libbie Bonner—61 years old,  
died Saturday night at 10 o'clock; fun-  
eral Tuesday morning at 10 o'clock at  
the home with burial in Millbrook cem-  
tery, Rev. Safford officiating.

Mrs. Corris and Mrs. Bonner were  
born in Russell and lived near each other  
on the same street, all their lives.  
Mr. Dwyer moved into the street a  
little over 50 years ago. They have al-  
ways been fast friends and had been  
prominent in the community.

Mrs. Charles Gorham of Waukegan  
was called to Russell on Saturday by the  
serious illness of her sister, Mrs.  
Bonner, who was suffering of urachis  
poisoning and had been unconscious two  
or three days. Mrs. Bonner resided on  
the large farm owned by her two broth-  
ers, David and Grant Murrie.

While there another sister Mrs. Corris  
called her up on the telephone and ex-  
plained that her husband was very ill,  
asking her to go over to her house.  
Mrs. Gorham did so and had not been in  
the house more than half an hour when  
Mr. Corris died.

Mrs. Gorham would have remained  
all night had it not been for the fact  
that her husband is quite ill in Wauke-  
gan and she feared to leave him alone  
for the night. Mr. Gorham has been  
ill for over a week. Shortly after ten  
o'clock Saturday night she received a  
telephone message informing her that  
her sister, Mrs. Bonner had just passed  
away.

Mr. Corris' death is attributed to a  
severe cold which he contracted last  
fall and which seemed to cause a gener-  
al breakdown. Mrs. Bonner's husband  
had been dead for a number of years.  
Besides his wife Mr. Corris leaves five  
children.

**SHURTELL FOR SPEAKER**

Deadlock To End in the Election of Ed.  
Shurtell

That the deadlock which now exists  
in the selection of a speaker of the  
house will terminate in the election of  
Edward Shurtell, is the belief of the  
"mon-igher-up" at the state capital.  
Representatives of the Republican,  
Bull Moose, Democratic, and Socialist  
parties will convene in a special confer-  
ence Wednesday night, and an attempt  
will be made to work out a nonpartisan  
organization of the house.

The invitation was extended to the  
other parties by the Bull Moose lead-  
ers. They expressly stipulated that  
the senatorship should not be consid-  
ered in the nonpartisan conference  
scheduled, although it is reported that  
Shurtell will be nominated for senator  
in case he meet defeat as a candidate  
for the office of speaker of the house.

When the report first reached Wau-  
kegan that Shurtell was being spoken  
of as a candidate for speaker, several  
politicians declared their intention of  
rushing to Springfield. Messages from  
Meringo, Woodstock and Rockford, con-  
firm the report that an attempt will be  
made to elect Shurtell.

While it is possible to clear up the  
bad situation of affairs, the late indi-  
cations are that the deadlock will resist  
all the efforts of the locksmiths for at  
least another day. Four fruitless ballots  
were taken in all, with no important  
changes.

As a speaker Shurtell has been held  
in high esteem since the first year he  
was sent to Springfield.

The stand he took in the Lorimer  
trouble, and his strong political backing  
in Chicago and northern Illinois stands  
him well to win," said an ex-represent-  
ative.

"In case Shurtell is elected, one  
alleged political leader is doomed to  
defeat," said a man from Woodstock.

**ZION CITY**  
**WILL LOSE**  
**LACE WORKS**

The Lace Factory Which Was  
Founded by John A. Dowie  
Moves by April 1st

**FACTORY EMPLOYS 200**

Marshall Field & Co. Are the Owners of the  
Lace Works at Zion City and Will Move  
the Factory to Chicago

Zion City is to lose the lace works  
and two hundred men and women.

From an official source it is learned  
that Marshall Field & Company, owners  
of the world-famous industry, have pur-  
chased a factory building in Chicago  
and have completed plans to remove  
their machinery and stock to that city.

The factory building was recently  
purchased by the Marshall Field estate  
from Sprague, Warner & Company.  
The building was formerly used by the  
wholesale grocery as a warehouse.

Late Monday evening it was announ-  
ced that the industry would be moved to  
Chicago within two months. Later it  
was said it was the intention of the  
owners to begin operation in their Chi-  
cago factory by the first day of April.

Fully two hundred men and women  
are employed at the lace works and  
they have been informed that they will  
be able to find employment in the Chi-  
cago plant in case they decide to leave  
the White Dove city.

The lace works at Zion City was  
founded by the late John Alexander  
Dowie. He brought skilled lace mak-  
ers from London, England, to superin-  
tend the work at the plant. Expert  
designers were brought from all parts  
of the globe to assist in the work at  
the plant.

Soon after Dowie's death the lace  
works was sold by the receiver to the  
Marshall Field estate. Chicago men  
were sent to Zion City to assist in the  
work, and to "clear" the running ex-  
penses. But recently an advertisement  
offering \$200 reward for the arrest and  
conviction of the men who destroyed  
lace looms in the plant were offered by  
Marshall Field & Company.

Members of Voliva's faction and  
members of the Independent faction  
have been given work in the big in-  
dustry. When the report that the re-  
ward reached the ears of members of  
Voliva's faction this cry was hurled to  
the four winds:

"It is not an act of Providence, but an  
act of the Almighty. The Independents  
who have been given work in the lace  
plant must leave the Holy City."

It is an acknowledged fact that a big  
percent of the men and women who  
work in the lace works are not follow-  
ers of Voliva. A number of the em-  
ployees are residents of Winthrop, Har-  
bor and a few reside in Waukegan.

During the past year products of this  
industry have been sold in all the big  
cities in the United States.  
The lace manufactured at the plant  
is far superior in quality and design  
than that manufactured by any other  
concern in the American continent.

The weekly payroll at the plant  
amounts to about \$10,000. Handker-  
chiefs valued at \$125 apiece are manu-  
factured at the plant.

**Seven Famous Bibles.**

Among the nations of the world the  
seven famous Bibles are: The Scrip-  
tures of the Christians, the Koran of the  
Mohammedans, the Eddas of the  
Scandinavians, the Tripitaka of the  
Buddhists, the Five Kings of the  
Chinese, the Three Vedas of the Hin-  
doo, and the Zandavesta of the Per-  
sians.

**Origin of Famous Phrase.**  
"Writo liko an angol" is a corruption  
of Angolo. Among the Greeks who  
emigrated to Italy and afterwards in-  
to France in the reign of Francis I  
was one Angolo Verdocto, whose writ-  
ing excited the admiration of the  
learned, so that his name became  
synonymous for the beautiful writ-  
ing and gave birth to the phrase, to  
"write liko an angol."

**WILL HAVE**  
**4TH BANK**

The Waukegan's Fourth Bank  
Will be Called the Wauke-  
gan National Bank

**HAS CAPITAL OF \$100,000**

J. W. Barwell, L. J. Yager, J. P. Arthur, D. T.  
Webb, T. W. Buck and H. C. Bar-  
nett are Organizers of New Co.

Washington, D. C., Jan. 10.—The  
comptroller of the currency has re-  
ceived an application for a charter for  
the Waukegan National bank of Wau-  
kegan, Ill., with a capital of \$100,000.

The organizers are: J. W. Barwell, L.  
J. Yager, F. Buck, J. P. Arthur, D. T.  
Webb and H. C. Burnett.

The above items in Chicago papers  
Saturday brought the first news to  
Waukegan people of the plan to launch  
a new bank in that city. It develops,  
however, that plans have been under  
way for some time past and some of  
the promoters admitted they preferred  
not having the matter become public at  
least for another week. However, the  
telegram from the East broke the  
news, and as a result, financial circles  
were very much interested.

It was learned that the promoters  
are considering sites along Genesee  
street and have been picking for a  
number but as yet none have been  
closed. It is said that is why they  
waited the matter held in abeyance for  
a time, in order to close for a site.

The fact that F. C. Seidel is ven-  
ing his present location about February  
1st and that L. J. Yager has a lease on  
it and reports had it that he planned  
to use it as a part of his business house,  
has caused the belief to prevail that  
either the Seidel store or the north por-  
tion of the present Yager quarters may  
be used as a site for the new bank.

Nothing is obtainable as to who are  
to be the officers of the new company  
but it is learned that J. W. Barwell  
surely be chosen as president and that  
Mr. Burnett is to be cashier. It is also  
known that Willard Ward, now assist-  
ant cashier at the First National Bank,  
is to go to the new bank as assistant  
cashier.

J. W. Barwell is head of the Blatch-  
ford Calf-Meat factory, member of the  
Civil Service board and one of the  
wealthiest men of that city.

L. J. Yager is a clothier, former  
civil service commissioner and promi-  
nent in Baptist church circles.

F. W. Buck is extensive realty hold-  
er, former mayor of the city, former  
school board, owner of Buck's meat  
market.

J. P. Arthur, president of the Cy-  
clope Fence company and controller of  
the company's stock.

D. P. Webb, coal, wood and cement  
merchant of years' experience in that  
city.

H. C. Burnett, employed at the First  
National bank for over 15 years, and a  
member of the school board for years,  
also former secretary.

It is reported that one reason why  
the plans were held back is because the  
promoters have not yet placed all their  
stock and they wished it all placed be-  
fore the news came out. It is declared  
however, that most of the stock has  
been subscribed for.

**INSURANCE MEETING**

The annual meeting of the Millburn  
Mutual Insurance company was held in  
the Masonic hall at Millburn on Sat-  
urday of last week. Officers elected for  
the ensuing year are as follows:

President, John Bonner; Secretary,  
John A. Thain; Treasurer, Henry H.  
Grimm. Director for the Northern  
District, George Edwards; Southern  
District, George Kappler; Central Dis-  
trict, George McCullough.

**ASKS RE-COUNT OF VOTES**

Claim First Is Made in Counting Ballots  
of Hull-Munro's

James H. Vickers, the defeated Re-  
publican candidate for the state legisla-  
ture, has filed papers for a count of the  
votes in the present legislature.

Mr. Munro was high man in the high  
but Vickers bases his claim on the fact  
that Munro was on the Progressive  
ticket, that he was the only candidate  
on that ticket, and that instead of  
marking a cross in front of the name of  
Mr. Munro, the voters merely marked  
the party circle.

And the validity of the Progressive  
party to a place on the election ballot  
is also attacked on the ground that no  
such party existed in time to entitle it  
to a place on the ballot as required by  
the primary election law of Illinois.

Other declarations are set forth all  
calculated to show that Mr. Munro re-  
ceived an undue advantage and that  
election judges and clerks in counting  
and tallying the votes were negligent  
in some instances in counting the bal-  
lots. In the town of Manchester, Boone  
county, it is claimed, Mr. Vickers was  
entitled to 100 more votes than report-  
ed for him, the vote as finally returned  
from that town showing an increase of  
100 more than first returned.

Insufficiency in his petition not being  
properly signed, in names of nonquali-  
fied voters having signed them and that  
false, fictitious and fraudulent names  
appear in large numbers on the Munro  
petition are also set up in the contest  
papers filed by Mr. Vickers.

**AUTO CASE IN COURT**

Case is of Much Interest to Lake  
County People

The case of Louis Dorf against An-  
drew White, in Circuit court is attract-  
ing much interest. This is the case  
where a Chicago lad sues a Grayslake  
man for \$5,000 damages on the charge  
that he (Dorf) was run over by White's  
machine in Chicago and had his arm  
broken.

An interesting sidelight came Tues-  
day morning when a Chicago newsboy,  
Eric Hanson, who said he was selling  
papers at the corner when the accident  
occurred, also claimed he was run down  
by the same machine and had his shoul-  
der hurt. Previous to this Mr. White  
had never heard anybody but Dorf  
claim to have been in the way of the  
machine.

Dr. DeWitz, the physician who at-  
tended Dorf and who did not hear the  
evidence of Tuesday, went on the wit-  
ness stand and told how he had tem-  
porarily put a splint on Dorf's arm and  
that the boy went home. He attended  
him the next day, setting the bone.  
The plaintiff had claimed previously  
that the boy was unconscious for three  
days.

The defense also brought out that the  
attorney from Chicago who appeared  
for Dorf had visited the boy two days  
after the accident, had quizzed him con-  
cerning the accident and Hanson also  
admitted he had been visited by the at-  
torney.

The evidence was all finished Tuesday  
afternoon and the attorneys started on  
their arguments about 3 o'clock. The  
jury on the case disagreed and no ver-  
dict was rendered.

**SCHOOL BOY**  
**KILLED BY**  
**FAST TRAIN**

John Costini, 12 years old, son of Mr.  
and Mrs. Joe Costini of 513 Market  
street Waukegan, was probably fatally  
injured Monday noon when he was  
struck by fast train No. 205, the same  
train which a few weeks ago struck an  
automobile just west of Ravinia, result-  
ing in death of one woman and serious  
injuries to the other occupants of the  
machine.

The injured boy was rushed to the  
June McAllister hospital at once in the  
Conrad & Hart ambulance. He was  
unconscious and it was impossible to  
tell how badly he was hurt although it  
is believed he cannot survive.

This boy with two cousins were en-  
their way to school when the accident  
happened. They waited on the east  
side of the tracks on the Water street  
crossing while a southbound train pass-  
ed. Then, without waiting for the  
gate to be raised and without pausing  
to see if the other track was clear, they  
darted across the track. Two of the  
boys got across in safety, but John, who  
was several feet behind, stopped upon  
the other track just in time to be struck  
by the northbound train.

The train was stopped within a re-  
markably short distance and the boy's  
unconscious body was picked up and  
carried to the Northwestern depot  
where it was placed in the ambulance  
which arrived later.

Later—the injured lad passed away  
at the hospital Tuesday morning.

**Association**

**STAND FOR FAIR CONTRACT**

Advise all to Stand by the Association and  
retard the Signing of Contracts Until  
Fully Advised

To the members of the Racine and  
Kenosha Counties Sugar Beet Growers  
Association,  
Gentlemen:

The Board of Directors wishes to in-  
form you that a committee went to  
Janetville on the 28th day of December  
last, at the invitation of the Rock  
County Sugar Company to confer with  
them in regard to a contract for another  
season, likewise to Milwaukee on  
January 4th, at the invitation of the  
Wisconsin Sugar Company. Commit-  
tee was received very cordially at both  
places.

The sugar beet companies at no time  
intimated that our association would  
work any hardship on them whatever,  
but rather, to the contrary, that it  
would be a mutual benefit to both the  
grower and the sugar company, that it  
would enable them to obtain contracts  
easier, and work more harmonious with  
the growers.

The price, weighing, taring and re-  
ceiving of beets was discussed. The  
indications are, that the association will  
have the main fight on the weighing  
and taring, as the beet companies are  
inclined to insist that the beets be  
weighed and tared at their factories.  
The price and receiving or taking the  
beets in season did not seem to be so  
objectionable. They stated that they  
were about to make plans and arrange-  
ments for the piling of several thou-  
sand tons of beets at their factory an-  
other season, which would enable them  
to unload the beets promptly in the  
rush part of the season. They also sug-  
gested if they made a difference in price  
if it would be satisfactory to the grow-  
ers, for each one, to load his own car,  
take railroad weights, (that means  
weighed at the factory) and to be tar-  
ed at the factory, and in that way they  
could eliminate a great many local men  
at the loading stations, and thereby  
curtail expenses to a great extent. Both  
companies use the same argu-  
ments.

The beet companies claim they are  
undecided as to a contract for another  
season on account of the uncertainty  
of the tariff. Mr. Wagner, of the  
Wisconsin Sugar Company, has asked  
us to wait until after the 15th of this  
month, as the sugar beet companies  
and other industries have been notified  
that they will be given a hearing on  
the tariff question before the Ways and  
Means Committee on that day at Wash-  
ington, and that he would be pleased to  
meet us, also including the other beet  
companies at any place after he re-  
turns. The Janetville and Pope people  
are also agreeable for a meeting of the  
three companies on or about the 20th of  
this month, when we expect to reach  
some agreement. Until that time we  
ask you do not contract, and give your  
association your loyal support, for we  
are confident we will obtain results,  
and that we are acting wisely for our  
own protection. We have nearly all  
felt the unjust advantage the beet  
companies have taken of the grower in  
several ways this season, short weights  
heavy tare, bad loading, fast but not  
tall, small checks and no profits with  
tariff protection what will it be, should  
the tariff be removed, and the beet  
companies have their own way.

Our association is going to stand for  
a contract with the beet companies  
that is fair between man and man,  
wherein the grower will be recognized  
as well as the beet companies.

The beet companies are urging hard,  
that each grower load his own car and  
take railroad weights, which means the  
grower to stand the shrinkage until the  
beets are unloaded.

It would also work a hardship on the  
growers quite a distance from a load-  
ing station, and would practice-  
fully put the small grower out of busi-  
ness that could not load a car in 48  
hours.

Will keep you fully advised, and  
would ask you not to contract until  
you receive further information.

## ARCHBOLD IS GUILTY

CONVICTED BY SENATE FROM  
FEDERAL OFFICE.

## JUDGMENT OUSTED FROM BENCH

Could Man, in Anteroom of the  
Court, is Utterly Crushed When  
Learned the Extent of the  
Verdict Against Him.

Springfield, Jan. 15.—Robert W. Archbold, judge of the commercial court, one of the most important tribunals in the land, was found guilty on five of the thirteen counts brought against him in the United States senate. On the first count, five of the 73 senators voting against Archbold.

It was by the following resolution the senate removed from his high office and forbidden ever again to hold office of profit or honor under the United States government: "The senators, therefore, order and decree, that it is hereby adjudged that the respondent, Robert W. Archbold, circuit judge for the United States, be removed from the judicial circuit and designated to serve in the commerce court, be and he is hereby removed from office and that he be and is hereby forever disqualified to hold and enjoy any office of honor, trust or profit under the United States."

Judge Archbold's wife watched the voting on the thirteen counts from the senate gallery and remained till the end although the first vote told her that her husband had been stripped of his judicial robes. His son, Robert W. Archbold, Jr., who has acted as his counsel, sat on the floor of the senate apparently unmoved through the long session. Archbold himself turned and fidgeted in a committee room on the gallery floor. He was utterly crushed when he learned the extent of the verdict against him and retiring to his home, refused to see or talk with anyone.

The scene as the senatorial jury was delivering its verdict was as impressive as it was unusual. One by one the senators rose in their places as their names were called and answered, "guilty" or "not guilty." Some of them spoke in very low tones. All were apparently affected by the solemnity of the occasion.

The overwhelming vote against Archbold on the first count, which had to do with the coercion of the Erie railroad to enter into a contract with him for the purchase of a culm bank, was sufficient to establish the fate of the respondent. A conviction on any of the five counts meant removal from the bench.

On this count Senators Burham, Penrose, Oliver, Payator and Catron were the only members of the senate who voted to support Archbold. All the rest, including Root, Crane and Smoot, the senate representatives of the president who placed Archbold on the commerce court, were constrained by the force of the evidence to vote against him.

A difference of opinion as to the degree of culpability saved him from conviction on eight counts, but so profound was the belief of the senators in his unfitness that they visited on him the severest penalty in their power, when, after a brief secret session, they fixed punishment by resolution.

The house prosecuting committee, led by Representatives Clayton of Alabama and Sterling of Illinois, whose energetic prosecution of the case resulted in the present humiliating conviction, sat without a change of expression through the afternoon.

Senator O'Gorman of New York when the last vote was taken moved that it be ordered by the senate that Judge Archbold be removed from the bench and forbidden ever to hold office of profit or honor under the government. Oliver of Pennsylvania, who, with his colleague, Penrose, had voted to support Archbold, a Pennsylvania man, moved that this resolution be divided. This motion prevailed. By viva voce vote and without dissent the senate decided that Archbold must be removed. A vote of 39 to 35 disqualified him from holding any future office.

Two British Airmen Perish.  
London, England, Jan. 15.—Two British airmen, L. F. MacDonald and a man named Inglis, were drowned in the Thames Monday. The airmen were flying at a height well above the river when the machine suddenly swooped downward. Immediately upon coming into contact with the water the engine exploded. One of the airmen clung for awhile to the top of the machine, but soon sank.

## ENJOIN LUMBER TRUST

EASTERN ASSOCIATION HELD A  
CONSPIRACY UNDER LAW.

Decision Regarded as Limiting in  
Large Measure the Power of  
the Middlemen.

New York, Jan. 11.—The government's petition for a permanent injunction against the Eastern States Retail Lumber Dealers' association, alleged to be a combination in restraint of trade, was granted by the federal district court here Thursday.

The defendants include also the New York Lumber Trade association, the Building Material Merchants' association, the New Jersey Lumbermen's Protective association, the Retail Lumbermen's association of Baltimore, the Lumber Exchange of the District of Columbia and others.

Washington, Jan. 11.—The government's victory at New York against the so-called lumber trust is regarded by officials of the department of justice as one of the most important accomplishments under the Sherman anti-trust law, because it limits in large measure the power and privileges of the much-discussed "middleman."

The decision is construed here as meaning that the consumer of lumber, untrammelled by the retailer, may purchase direct from the wholesaler or manufacturer, and the latter may sell direct to the public without interference by a combination of retailers.

There still are pending lumber trust cases constituting in the aggregate a nationwide move.

## THREE DEAD; 13 HURT IN FIRE

Firemen Confident Many Lost Their  
Lives of Whom No Trace Will  
Ever Be Found.

San Francisco, Jan. 11.—Three known dead and thirteen more or less seriously injured, some of them fatally, completes the list of known casualties in a lodging house fire, which swept nearly a block of territory lying on the north side of Howard street between East and Stewart streets here Thursday.

The buildings destroyed were the Maritime and San Pedro lodging houses, both flimsy two-story frame structures, given over to the trade of the men of the sea.

Three narrow exits from the two buildings were the only means of escape the lodgers had from the blazing boxes of death and the army of firemen searching in the ruins for bodies are confident many lost their lives of whom no trace will ever be found.

## STRIKERS IN BLOODY RIOTS

Garment Workers Clash With Non-  
Union Employees and Many Are  
Seriously Injured.

New York, Jan. 13.—Several clashes between strikers and strike-breakers, marked by bloodshed and many arrests occurred in the strike of the garment workers Friday. Several thousand recruits were added to the number of the revolvers.

More than a hundred strikers, non-union employees, detectives and policemen had a free-for-all fight early in the day in front of the factory of the Star-Kee Pants company, in La Fayette street. Patrick Cartone, a union picket, was slashed with a razor and his head with an iron bar and a dozen of the combatants received minor injuries.

## TRUST QUIZ HALTED

GEORGE F. BAKER DECLINES TO  
GIVE STATEMENT REGARDING  
DEALS IN SECURITIES.

BANK DEPOSITS \$100,000,000

Financier Concludes His Testimony  
by Denying the Existence of a  
Money Combine—Regards Morgan  
as a Great General of Finance.

Washington, Jan. 13.—While examining George F. Baker Friday, the house money trust investigating committee struck a snag when it tried to force the joint operation of Mr. Baker with J. P. Morgan in the handling of issues of securities by railroads and industrial corporations, as well as the joint interest of the two men in banks and trust companies in New York and throughout the country.

Mr. Undermyer asked Mr. Baker if he could supply a statement of the accounts by which the First National bank jointly with other institutions handled through syndicates issues of securities. The witness said his counsel had advised him that to demand this information was beyond the powers of the committee. The facts were not known in detail by the comptroller of the currency and he believed the committee had no right to demand them to be exposed to the public.

A long conference between Mr. Baker, Fisher A. Baker and former Senator John C. Spooner, his counsel, ended with a request that the question be passed to allow counsel to consider the legal phases.

A statement of the deposits of the First National bank was placed on record. Mr. Baker said he believed the average deposits were about \$100,000,000. On November 1 the bank had 149 accounts with balances of \$29,676,227.44.

Mr. Undermyer went back to Mr. Baker's opposition to the publicity of bank assets, but he was unable to shake the financier's attitude.

Mr. Baker testified that the securities turned over by the First National bank to the First Securities company were largely of companies in which he was a director or a voting trustee. Mr. Undermyer tried in vain to have him testify that the First Securities company and the First National bank were operated practically as a single concern.

Mr. Baker, in concluding his testimony before the committee, denied the existence of a money trust, but admitted that the safety of the present financial situation depended on the personnel of a few men. He said he thought further combination would be dangerous. He regards Morgan as a great general.

Declaring that the Vreeland-Aldrich plan for the revision of the money system would clinch Wall street's control of the country for the next 50 years, Leslie M. Shaw, former secretary of the treasury, made vigorous protest to the house banking and currency committee against approval of the measure here Wednesday.

## FLOOD LOSS \$1,000,000

PITTSBURG INUNDATED BY OVER-  
FLOW OF TWO RIVERS.

50,000 Men Are Made Idle When Fac-  
tories Are Compelled to Shut  
Down.

Pittsburg, Pa., Jan. 11.—When a crest of 31.3 feet was reported at the junction of the Monongahela and Allegheny rivers here Thursday, the fourth greatest flood in Pittsburg in the last forty-seven years was recorded. The water remained stationary for two hours, then began to fall slowly and had dropped to 29½ feet at six o'clock in the evening.

The waters reached Penn avenue and Federal street in the downtown section of Pittsburg, and temporarily shut off business below that point. Inundated hundreds of homes in the lower sections of the North side, West end and South side, flooded many of the mills lining the river banks, made approximately 50,000 men idle through manufacturing shutting down, and caused in the neighborhood of one million dollars' loss through property damage.

Stories of privation and suffering came from both up and down the river, where thousands of homes have been flooded and relief is being sent from every quarter.

Only three greater floods have occurred in Pittsburg in the last forty-seven years, or since 1855, and in 197 years that records have been kept there have been only ten more serious inundations.

## STIRS BUSINESS MEN

GOVERNOR WILSON APPEALS AND  
WARNS IN COMMERCIAL  
CLUB SPEECH.

## SAYS MONOPOLY MUST END

Declares Public Good Must Be Put  
Above Private Aggrandizement—  
Urges Plain Words Regarding Re-  
cent Money Trust Revelations.

Trenton, N. J., Jan. 14.—Arriving in Trenton Monday morning from Chicago Governor Wilson was the guest at the banquet at the Hotel Sterling tendered to him by the presidential electors, members of the New Jersey legislature, members of the state committee and others.

Chicago, Jan. 14.—Speaking at a banquet given by the Commercial club of Chicago Saturday night, Woodrow Wilson, the president-elect, delivered an earnest appeal and a warning to the business men of the country.

To the three hundred bankers, merchants, lawyers, railroad men and operating officials of public utilities who filled the Blackstone dining-room, Mr. Wilson spoke in an ordinary conversational tone.

There was not a man present who did not at some time feel that Governor Wilson's remarks hit him personally. They applauded frequently and at the right periods—with one notable exception. That was when the president-elect declared that monopoly must end. He halted for a moment and then with a whimsical smile remarked:

"I see you do not applaud that!" A scattering salvo of handclapping started, but it was not strong enough to drown Mr. Wilson's:

"I am disappointed."

The business men of the country were told bluntly that the peaceable success of the new administration depended on their co-operation, and that without it the president would fight for victory. They also were told that no man who did not put the public good above private aggrandizement—be he politician, merchant, or personal friend—could have influence with or part in the administration.

Four lines of Mr. Wilson's coming endeavor were set forth. They may be summarized as follows:

The country must husband and administer, not exploit, its common resources for the common welfare, with the idea of conservation—not reservation.

The raw material of the country must be at the disposal of every one on equal terms, the government not determining the terms, but guaranteeing against discrimination.

Credit must be at the disposal of all on equal terms. In no other way can dangerous class prejudice be removed. The bankers must see it is done.

Every feature of monopoly must be removed.

Governor Wilson spoke with the utmost frankness about the recent revelations regarding the money trusts.

"I am not indicting the banking methods," he said. "The banking system does not need to be indicted. It is already indicted. I have reason to believe from things which have been said under oath that there are inner and outer circles of credit, regions of chilly exclusion and regions of warm inclusion. This must be changed. Some of the men who run the game attend to run it fairly, of course. But the country is not going to grow rich by the efforts of those who are 'in' now, but by those who are 'out' now."

Mr. Wilson urged that all prejudices cease. He specified sectional prejudice and showed a hope that his election, that of a man of southern birth, would show that the southerner is not of different breed from the northerner. And then he pleaded for the efforts of the business men to dissolve the class prejudice.

"Never you mind, kid," said uncle. "Many a prominent statesman has been scared by less."

DREADED TO EAT.

A Quaker Couple's Experience.

How many persons dread to eat their meals, although actually hungry nearly all the time!

Nature never intended this should be so, for we are given a thing called appetite that should guide us as to what the system needs at any time and can digest.

But we get in a hurry, swallow our food very much as we shovel coal into the furnace, and our sense of appetite becomes unnatural and perverted. Then we eat the wrong kind of food or eat too much, and there you are—indigestion and its accompanying miseries.

A Phila. lady said:

"My husband and I have been sick and nervous for 15 or 20 years from drinking coffee—feverish, indigestion, totally unfit, a good part of the time, for work or pleasure. We actually dreaded to eat our meals. (Tea is just as injurious, because it contains caffeine, the same drug found in coffee.)"

"We tried doctors and patent medicines that counted up into hundreds of dollars, with little if any benefit."

"Accidentally, a small package of Postum came into my hands. I made some, according to directions, with surprising results. We both liked it and have not used any coffee since."

"The dull feeling after meals has left us and we feel better every way. We are so well satisfied with Postum that we recommend it to our friends who have been made sick and nervous and miserable by coffee." Name given upon request. Read the little book, "The Road to Wellville," in pkgs.

Postum now comes in concentrated powder form, called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavor is always uniform. Sold by grocers—60-cup tin 30¢, 100-cup tin 50¢.

# WASHINGTON GOSSIP

## Collapse of Washington's Famous Cotillon Club

WASHINGTON.—The collapse of the "Bachelors" Washington's famous cotillon club, which for the last twenty years has established the standing of the successive crop of smart society, has been followed by the establishment of the "Benedict's" and at last Washington winter time smart set has undergone the long threatened pruning. The Bachelors, according to some reports, "fell of its own weight." In other words, too many who could not muster all the requirements were admitted to membership and one by one the "swagger" element withdrew. The defection began several seasons ago when Major Charles McCawley, U. S. M. C., who throughout the Roosevelt regime was no Beau Brummel of Washington, gave up his membership. George Howard, son of Lady Howard of England and kin to the ultra-aristocratic Riggs connection, resigned about the same time. Gist Blair, one of the most eligible bachelors in the country, came a step third, but these lapses were made up by the younger army and navy set.

Last year things got worse and even the lances of criticism assailed the bachelors, whose dances careful mothers considered a bit too blasé for the debutantes whose coming-out heretofore had not been considered properly accomplished unless "they appeared" at least at the Bachelors' three yearly "Germania." The turkey trot was one of the first wedges, the introduction of bridge whist tables where some pretty high play was possible was another disintegrating feature, while the habit some of the young matrons had of going out to the smoking rooms and puffing a cigarette or two between dances was yet another phase of the bachelors' later dances which more careful mothers refused to view with favor.

Anyway this season the Bachelors fell through, the last president, Lawrence Townsend, former American minister to Belgium, resigning and the general committee going out with him and leaving the old organization with its new membership floundering.

The Bachelors, under Major McCawley's regime, first attained the distinction of having the mistress of the White House stand as hostess at one of the first dances each year. Mrs. Roosevelt and Mrs. Taft both "received" for the Bachelors at least once each season. For "resident hostess" one of the smartest of the resident set stood as sponsor while always the second or third dance had for its hostess the wife of one of the ambassadors.

## M. C. A. Puts Ban on All Suggestive Songs

THIS notice was posted the other day at the Y. M. C. A. rooms andatory here:

Members of the Y. M. C. A. and those to the Association building please refrain from playing or singing music of the following kind about the buildings: "Hitchy Row, Row, Row," "Everybody's Doing It," "When I Get You Alone To-"

Such songs are suggestive and not in keeping with the ideals of the Association."

Notice appeared on the bulletin board throughout the Y. M. C. A. deriding the "Hitchy Row, Row, Row" and "When I Get You Alone To-"

"A ruling was made," said Secretary Cooper, "not because any one has made himself objectionable by performing these questionable songs, but more to insure that the policy and moral conditions of the young man should be carried out in this detail as in other. For many years I have noticed a slow lowering in the moral tone of the average popular song. Formerly shot music was derived from the operas of Gilbert and Sullivan; nowadays they seem to come mostly from the burlesque stage. Twenty-five years ago many popular songs possessed considerable merit; today many of them are unspeakable."

"It is not the actual, literal meaning of the words sung that is objectionable, but it is the connotation, the idea obviously implied, or that one is led to participate, which constitutes the peculiarly vicious effect of these songs. Popular music today is at its lowest ebb. But even if it cannot show brains, it at least can show decency, and I would welcome any movement designed to this end."

The Washington Y. M. C. A. has a membership of 3,000.

## Plan to Further Embellish the Capitol Grounds

PLANS are made, and their execution will be proceeded with as soon as finance warrant, for further embellishing the capitol grounds by the planting of additional shrubbery. It should be emphasized that no attack is contemplated on the design of the grounds which represents the admirable work of the landscape architect, Frederick Law Olmsted. The layout of the capitol grounds is satisfactory to everybody, and the design is venerated by all the men having in charge the care of preservation of the grounds.

When the capitol grounds, as we know them, were young, a great deal of the planting was for quick results. The results were achieved. Some shrubbery has developed so that as a

permanent feature it cannot be ignored by progressive landscape architects, but even this will not be trifled with. Plant mortality in the capitol grounds was high last winter. A large amount of shrubbery was killed by the long and excessive cold. A number of trees have been slain by summer storms, and several were destroyed or irreparably injured last summer.

Whenever the replacement of a tree is determined on a memorial tree will be set out, with the final result that memorial groves will surround the capitol. Last spring a beginning in this line of work was made, and in the east park on the senate side Senator Bacon planted a willow oak, Vice President Sherman a purple beech, Senator Lodge a red oak, Senator Cullum an oak, and Senator Wetmore an English beech. At the east front on the house side Speaker Clark planted a sugar maple, Representative Cannon an oak and Representative Brown of New Jersey an oak. There are several tree vacancies in the west grounds, and these will be filled by the planting of remembrance trees next spring.

## Baby McLean's Birthday Party Breaks All Records

BABY Vincent Walsh McLean's \$10,000 birthday party, given the other day at the Walsh home in Washington, broke all records for gorgeous and ingenious entertainments.

Gifts came in hundred lots, and in hundred lots they continued to come for several days. The greater number are yet to be opened for the inspection of the youthful recipient and a pair of secretaries will be required to get the notes of thanks off in proper time.

The one best gift of the whole collection, however, is the snow burro which came as a gift from Mrs. McLean to her only son.

A giant white bull moose, white as snow and terrifically natural, shares the place of honor with the burro in the affections of the young heir. This also was a gift from Mrs. McLean and its appearance for the first time created a great sensation.

The birthday cake, which had the place of honor on the table specially constructed for the comfort of the tiny guests, was a real wonder cake.

with its tier after tier of frosted "torrises," the pinnacle crowned with a trio of birthday candles.

Boxes of cake, with the monogram of the celebrant, together with quantities of wonderful toys and marvelous mechanical trophies, were given to each of the guests as they set off home at the close of the afternoon. For entertainment there was a circus with a real clown. Punch and Judy show and a vaudeville entertainment completed the show.

Baby McLean is three years old and is heir to between ninety and a hundred millions.

## LISTENING TO "HIS MASTER'S VOICE"

Among the numerous adjuncts of civilization introduced to the Philippines by the Americans is the talking machine, which the natives look upon as a supernatural affair that is beyond their understanding. "Where does the voice come from?" is their unvarying question, and some of them declare its owner must be buried in the ground beneath the box. Our photograph pictures a sub-chief of one of the most savage tribes listening to a comic song.

## GIRL AS A CONSCRIPT

### Barrack Training Is Advocated in Germany.

Adoption of Female Conscription School Urged as Remedy for Decay of the Empire—Will Meet a Social Need in Empire.

Berlin, Germany.—Conscription for women—or rather for girls—is the latest of the great reforms which Germany promises the world.

A heated debate has been raging on the subject. Scores of distinguished Germans like Field-Marshal Von der Goltz, ex-Minister of Education Von Moeller, Prof. O. Witzel, the woman novelist, Dr. Martha Gauthé, all favor the project, while it is opposed by a great many others, including the whole social democratic party.

The problem is well within the range of practical politics, and were it not for the unceasing financial need of Germany it would probably be carried out within a few years.

What form exactly conscription for women will take is still under dispute. A few zealous—mostly suffragettes—seriously propose that women be trained to fight in war. A much larger class—among them Von der Goltz and battalions, and drilled and disciplined on military principles, but confined, as far as duties go, to army tailoring, army cooking and sick nursing.

The women's army would be an adjunct to the men army, and all the males of the nation would be free to fight their country's battles.

Neither of these schemes is likely to win. The proposal most seriously backed is that women shall be drilled and disciplined on military lines for the sake of physique and character formation, but that they shall learn nothing except purely domestic duties.

Just as men are trained to serve in time of war, women would be trained to serve in time of peace, trained to make better wives, better mothers, better housekeepers, citizens and social workers. They would be taken at the age of eighteen or twenty, drafted into barracks, and for a year or perhaps two taught by the state on scientific lines all the functions of womanhood.

Women's conscription would thus meet a social need. The need is proved by the decline in the birth rate, which has fallen in thirty-five years from 42 per 1,000 to only 30.

"That," says Von der Goltz, "is proof of the decay of Germany."

The female conscription school argue that in Germany the state always thinks its function is to fight national evil; therefore, the state must not shrink from attacking the evil of "the demoralizing of womanhood."

If the natural woman is dying out, the state must replace her with the state-made woman. "The woman conscript" is the ideal of modern Germany.

So far, the most detailed scheme of female conscription has been worked out by Dr. Kurt Lomann, an ex-official and privy councillor. Lomann is a competent authority on organization. He stands strongly for the barracks system.

Every girl of eighteen, if not an actual invalid, is to enter the barracks for a year. Good character should be the only qualification, because the idea should be circulated that training by the state is an honor, not a punishment.

### CALLS HER DEARIE; ARRESTED

Husband Pleads Guilty, Blaming Christmas Spirit, but Spouse Insists It Must Have Been "Sprits."

New York.—When a man goes so far as to call his own wife on the street as "dearie" or "sweetheart," the offending husband ought to be haled to court.

Whatever other women's opinions may be about this, Mrs. Anna McDonald considered it her duty to do so, with the result that John S. McDonald found himself trembling before a police magistrate.

Behind him stood a policeman and the complaining wife determined to see justice done. "He ought to know better," she declared. "He is forty-one years old."

"I don't know why I did it," the husband pleaded.

The magistrate could not see that the husband's greeting was a crime.

For University Head Says the Heathen World Is Not Interested in Trinity or Atonement.

Boston.—Dr. Charles W. Eliot, former president of Harvard, addressed the Channing club of Unitarian Ministers, telling them of the religion which he believed the world wants.

He said he did not believe that man was altogether born in sin, as the English church prayer book stated it. That he called "a most horrible doctrine."

"I believe in good works," he said. "Work along the lines of the Provident Society of Boston and associated charities constitutes my belief in personal salvation. To do work along social lines is necessary. We want to

## Hale Scotchman Tells How to Pass Century Mark.

Leslie Fraser Duncan, Age Ninety-two, a Resident of London, Declares People Eat Too Much—He Lives on Two Meals a Day.

London.—The secret of health and long life is two meals a day. That has always been my rule, and—as if to clinch the matter—"I'm the tallest Scotchman in London—six feet six inches in my socks!"

"Leslie Fraser Duncan, ninety-two, with flowing white hair and a face glowing with health, thus gave the secret of his vigor."

"I began it as a boy," he said. "From when I was five years old, at my birthplace near Elgin, I used to walk six miles to school and six miles back every day for twelve years—just 400,000 miles in all—and that was on two meals a day. At eight in the morning I breakfasted on porridge, milk and barley scones. Then I had nothing till about eight in the evening, when I had more porridge or brose. On that fare I grew to be six feet tall at sixteen, strong and hearty, and now I am six feet six inches."

"In 1845 I came to London, and all through a busy career of fifty years I worked twelve and fifteen hours a day. Now I get up at noon, and my invariable diet, on which I hope to pass the century, for I am well and happy, is:

"One o'clock—Breakfast, three boiled eggs, tea, and three slices of thin bread and butter.  
"Two o'clock—Glass of milk.

## PREPARING FOR THE WORK OF 1913

CITY BUILDING, RAILWAY BUILDING AND FARM OPERATIONS IN WESTERN CANADA, BIGGEST EVER.

The machinery, the money and the men for carrying on the big works in Western Canada in 1913 are already provided for. The splendid harvest which was successfully garnered, and by this time mostly marketed, responded to the big hopes that were had for it early in the season, and inspired capitalists and railroads to further investment and building. From lake ports to mountain base there will be carried on the biggest operations in city building and railway construction that has ever taken place in that country. The Canadian Pacific railway has everything in waiting to continue their great work of double tracking the system and by the time the Panama Canal is open to traffic there will be a double line of steel from Lake Superior to the Pacific coast. The cost will exceed thirty million dollars. The Grand Trunk Pacific plan of building a first-class trunk line and then feeders at various points will be carried forward with all the force that great company can put into the work. The Canadian Northern is prepared to put into motion all the energy that young giant of finance and railroad building can put into various enterprises of providing and creating transportation facilities.

Building operations in the several cities that have already marked themselves a place in the list of successful and growing cities, will be carried on more largely than ever. Schools, public buildings, parliament buildings, colleges, business blocks, apartments, private residences, banks, street and other municipal improvements have their appropriation ready, and the record of 1913 will be something wonderful. Other places which are towns today will make the rapid strides that are expected and will become cities. There will be other Edmonton, Calgary, Regina and Saskatoon, other places that may in their activity help to convince the outer world of the solidity and permanency of the Canadian West. The country is large and wide and broad and the ends of its great width and length are but the limits of its agricultural area. Its people are progressive, they are strong, there is no reservation there. The country teems with this life, this ambition, this readiness to create and to use the forces that await the settler. If they come from the South, and hundreds of thousands of them have, they are now the dominant men of the North, and they have imbibed of the spirit of the North. Therefore it is fair to say that no portion of the continent will show such wonderful results as Western Canada, and the year 1913 will be but the beginning of a wonderful and great future. And in this future the 200,000 Americans who made it their home, and those who preceded them, will be a considerable portion of the machinery that will be used in bringing about the results predicted.

The development of 1913 will not be confined to the prairie provinces. Railway building and city building in British Columbia will be supplemented by the farm, the ranch and the orchard building of that province. Vancouver will make great strides in building, and Victoria, the staid old lady of so many years, has already shown signs of modern ways, and if the progress made in 1912 may be accepted as anything like what it will be in 1913, there will be wonderful developments there. During last year the permits went over the ten million dollar mark and much more is promised for the year now entered upon.—Advertisement.

**Suffer From Plague of Rats.**  
A "pled piper of Hamelin" is needed at Santa Paula, Cal. Thousands of rats, and all big wood rats, have invaded the place, and the situation is such that women are afraid to go to church. The rats seem to have a preference for churches and on several occasions have forced the feminine attendance at services to take to the high benches. The city authorities are seeking means to abate the pest. The rats are believed to have been driven out of the woods by recent fires in the forests.

**Great Effects.**  
"What is that terrible noise?" asked the pedestrian.  
"That," replied the policeman, "is caused by an ordinary one-cent safety pin sticking into a \$3,000,000 baby."

## PALACES ON PERU PLATEAU

Explorer Tells of Buried Inca City Uncovered in Jungle—Had Treasures with Officials.

New York.—Professor Hiram Bingham, head of the Yale Peruvian expedition, which has been conducting archaeological exploration work in the interior of Peru, reached New York with other members of the party from Cuzco.

Professor Bingham said the exploration was conducted chiefly at Machu Picchu, the buried Inca city, discovered on the previous expedition, which stands on a plateau surrounded by precipitous two thousand feet in height. The jungle was cleared away and more than one hundred burial caves were discovered. Ruins of baths, houses and palaces also were laid bare, and practically the entire city uncovered. Professor Bingham added that the jungle will soon cover them again, unless steps are taken by the Peruvian government to keep them open.

"On this trip," said Professor Bingham, "we had a good deal of trouble with the Peruvian government. On the two expeditions I had previously made into Peru I had no trouble at all, but the ministry had changed and those in power at present were not at all friendly to American exploration."

### HIGH SCHOOL NOTES

The Physics class doesn't agree to the first sentence in the Rhetoric exam any more than George does to the 2nd. The first reads "Physics is an interesting study." The second reads "The writings of my sister have never been published."

An epidemic of chicken pox has entered Antioch. Every one seems to be in danger of getting it, even the Beebe girls.

Miss Taylor have you had the chicken pox?

Some seem to think Helen is easier to "stuff" than a "white crow." Cheer up, Helen, you may see one some day.

Mr. Espey—"Get your wraps and bring them into the room without stopping to look into the mirror." Jannette evidently obeyed from the looks of her hat.

We were glad to see Fred in school, Monday.

Exams, exams, and more exams.

Faust's revised muscular movement writing book is used in the H. S. room.

Among those who are staying in town for the winter are: Pearl Trieger, Mary and Marguerite Padlock, Elsie Herman, Helen Burke, Adolph Pesat and Donald Smart.

The Physics class all passed the exam. What mark was awarded to you, Bertha?

The names of pupils who were neither absent nor tardy during the month of December 1912.

Simplify the Problem of Living. I do believe in simplicity. It is astonishing as well as sad, how many trivial affairs even the wisest man thinks he must attend to in a day; how singular an affair he thinks he must omit. When the mathematician would solve a difficult problem, he first frees the equation of all incubrances, and reduces it to its simplest terms. So simplify the problem of life, distinguish the necessary and the real—Thoreau "Letters."

Labor-Saving Device. A piece of plate glass to lay over the polished surface of the dressing table is a modern fashion which preserves the wood from stains or scorch marks caused by spirit lamps and tongs, while the washing of toilet covers is avoided and dusting simplified.

## "WE ARE A STATE OF PERJURERS"

Frank Admission Made by Ohioans About Personal Property Taxation

### ILLINOIS IN THE SAME BOAT

Old Uniform Tax System, Called "School of Dishonesty and Perjury"—Voters Demand Relief.

"To all inquiries about the taxation of personal property in Ohio the uniform reply was: 'We are a state of liars and perjurers,'" says the report of the Massachusetts tax commission (page 60), in telling of a visit of its members to Columbus. Continuing their frank confession of guilt, the Ohioans are quoted as saying:

"Our law compels us to make a return of our personal property and to pay a tax ranging from 2 to 4 per cent upon the full cash value. No man can or will pay such an exorbitant tax, and the result is that practically every man defends himself from spoliation and confiscation by perjurying his soul. You cannot overstate the situation. No words can do justice to the iniquities of our present system. The estates of widows and orphans may pay half of their income; a few over-conscientious citizens may pay a corresponding proportion of theirs; but the general result is that the owner of money, credits or securities, either leaves the state or makes a false return to the assessor. Our present system is a school of dishonesty and perjury."

The situation in Illinois differs from that in Ohio only that it is, if possible, a little worse, in that the Illinois general assembly has even less power than the Ohio legislature to give relief. Ohio's recent constitutional convention was so reactionary as to make the situation there still worse, and progressive citizens of the Buckeye state are now planning to secure an amendment to their state constitution providing for classification of property as urged for adoption in Illinois.

If the 3 to 1 vote of the people in November means anything to the members of the general assembly this winter, the voters will be able to rally a good tax amendment to the Illinois constitution in November, 1914, and the 1915 legislature, aided perhaps by a permanent tax commission of experts can enact laws to give the relief demanded.

### NEBRASKANS WANT TAX FREEDOM

COPY ILLINOIS IN SEEKING REFORM OF NEW YORK AND WISCONSIN BRAND.

Lincoln, Neb.—The matter of amending the Constitution to give to the people's representatives more power in enacting taxation laws so as to give relief from present inequalities, was discussed at a meeting of tax reformers in Folsom hall.

Nebraska, in common with many states, suffers from the general property tax and the accompanying severe restrictions prohibiting the legislature from passing tax laws suited to modern conditions. The amendment proposed is in line with the provision in vogue in New York and a few other states, urged by the National Tax association and recently adopted by Wisconsin, and still more recently by Oregon. It is similar to the amendment demanded by the people of Illinois by a 3 to 1 vote, and which the Illinois legislature is expected to submit during the coming winter.

### SUBMIT TAX AMENDMENT.

It is hoped that the legislature this time will work out a scheme for tax reform that is practicable and wise, says the Olesburg Register-Republican. If the vote in other counties

is anything like the vote in Knox, seven-eighths of the voters are demanding this step. The inequalities of the present system have long been a burden. The real problem is to get at the hidden wealth which it is most difficult for the assessor to trace. One of the complaints against the present system is that it encourages perjury. The classification property of property is one of the things proposed by the proposition on which the people voted.

Fairness demands the classification of property for the purpose of taxation. Too much intangible property is escaping the assessor. The burden on the man with his own home is too heavy.—Decatur Herald.

The taxing machinery of Illinois is no doubt imperfect, and any change which can be brought about by the adoption of the amendment now proposed could hardly fail to work an improvement.—Illinois State Journal, Springfield.

The first and most vital need of Illinois is an amendment to the revenue article of the constitution permitting the classification of property as demanded by the people 3 to 1.

The tax amendment is the one most needed.

### LOOK ON THE CHEERFUL SIDE

After All, What is the Use of Letting Worry Get the Upper Hand in the Journey Through Life?

Did you ever cross a room while you were busy and worried and catch a slight of your face in the glass or window?

Nine times out of ten your jaws are set, your eyes are hard, and the expression of your face would discourage the most enthusiastic optimist in the world.

The next time you catch yourself looking like that, stop and ask yourself what under the shining sun are you sulking about?

Everybody has a sense of humor, or if they have not they should have; so call it into play at once and talk to yourself, and keep on talking until you begin to laugh at yourself and the great big trouble that made you look like a scowling dog. What will you talk to yourself about?

Oh, any merry little thing that once occurred in your life—some pleasant surprise, some happy day—anything will do.

This is no foolish advice I am giving you, for, seriously, there is more in this looking cheerful than you can dream of. It is not half as feeble minded as it sounds. Try it for a few weeks and prove it for yourself.

Don't overdo it, of course, but let your face express good will and cheer and comfort, and the first thing you know you will feel it.

You cannot entirely forget your cares; nor would it be right to do so. Every one has cares; they are good for us. The real God sent cares that test the strength of our souls—all of us have those, too; but let us meet them like real women.—Chicago Tribune.

### UMBRELLA ALWAYS AT HAND

For Small Sum, Subscriber is Guaranteed Protection From the Sudden Shower.

The Belgians have just founded a company whose originality will be hard to beat. This is the Umbrella Lending society.

The company has a capital of several million francs, and half as many umbrellas, and its object is to save people from the trouble of buying and carrying these occasionally useful but cumbersome articles about when not in actual employ.

Subscribers pay \$1 a year, and are given an aluminum counter with a number. It is much easier evidently to carry a counter than an umbrella. If the subscriber is caught in the rain all that he has to do is to go into the nearest restaurant, tobacco shop, or big store, and in return for his ticket he is immediately furnished with a respectable umbrella.

When the sun comes out again he enters the first similar establishment and deposits his umbrella in exchange for another counter.—Stray Stories.

### AVOID SPREADERS OF GLOOM

Chronic Grumblers and Awowed Discontented Persons Are Never the Best of Companions in Life.

The chronic grumbler is not a good companion nor in any way an admirable person. We fly from her as from a contagious disease. Nothing so certainly affects one's spirits as being in the constant company of a person who has a grievance.

The cherishing of discontent with our circumstances, business, dress, or any other thing in life soon robs us of beauty and marks the countenance with the lines of worry and ill temper that tell their own unhappy story.

Why anybody who is young should indulge in grumbling as a pastime is one of the puzzles that never is solved, yet such people there are, and we meet them to our sorrow almost every day.

If they happen to be passengers on a railway train they pile their baggage and bundles on an extra seat for which they have not paid, are conveniently blind to the weariness of other passengers who are standing, and assume the aspect of martyrs when the conductor courteously but peremptorily informs them that they must make room.

They object to having the windows open, although the air may be loaded with impurities from the congestion of the crowd; they scold and fret at the throng or the conductor and rail at Providence in general because everything in life is not arranged with a view to their comfort.

### RESPONSIBLE FOR THE SLUM

Society Can Not Ignore Its Share of Blame When the Facts Are Brought to Light of Day.

Children work out their destiny along the lines of environment. If two infants, one born in a slum hovel and the other in a palace, were exchanged on the day of birth, each would work out his destiny in accordance with his surroundings. The child of the hovel would grow up to the palace. The child of the palace would remain on the level of the slum hovel.

While a noted physician was making these statements before a body of learned colleagues, a jury in Chicago found three boys, aged consecutively seventeen, eighteen and nineteen years, guilty of murder and convicted them to long terms in prison. Their slayers were all slum products. Their youth saved them from hanging.

Society cannot afford to wax sentimental over a murderer because of his mental over a murderer because of his youth. Its duty, in self-preservation, is to inflict punishment. A part of this self-preservation duty, however, is to prevent the growth of murderers, in so far as society allows slums to exist and other degrading influences to be fostered, it is not without responsibility for the criminal.

**Ocean Depths.**  
According to Sir John Murray, one of the greatest authorities on oceanography, the bottom is a desert of pitch-black darkness, penetrating cold, and eternal silence. Worms, sea puddings, and coral polyps sluggishly crawl or sway in the almost currentless depths, and only two species of fish, both of them, with much head and little body, have been found deeper than a mile and a quarter down.

**Reveries.**  
Things do not always go smoothly when five-year-old John dresses himself. "What's the matter, sonny-boy?" asked his mother one morning, as she heard a discouraged eight. John surveyed himself with a puzzled frown. "How does it happen?" he inquired tragically. "I've put on these overalls three times, and every time I get 'em on backsidebeforehand!"

Today we cut the frozen sod  
With trembling hands asunder;  
And lay this well beloved of God,  
Our dear dead Gladys, under.

Oh tears so blindly raining,  
Our hearts are weak, yet being flesh,  
To strong for our restraining.

Sleep, darling sleep, cold rains shall sleep  
Thy turf made dwelling;  
Thou wilt not know, so far below,  
What winds or storms are swelling;  
The birds shall sing in the warm spring  
And flowers bloom about thee;  
Thou wilt not heed them, love, but oh,  
The loneliness without thee.

Father we will be comforted,  
Thou wast the gracious Giver,  
We yield her up, not dead, not dead  
To dwell with thee forever,  
Take thou our child, ours for a day,

## THREE LIVES ENDANGERED BY GAS

Three persons were asphyxiated by coal gas Sunday night and while Monday all had recovered sufficiently to be out of danger, they feel they had a close escape from death. The victims: Harry Conger, 212 Victory street. Waukegan.

Mrs. Harry Conger. Mrs. Malene. The experience of the trio was about as thrilling as any of the several that have occurred this winter when gas has overcome residents of that city. It was about one o'clock that Mrs. Conger awoke to find her head almost "splitting." She aroused her husband with difficulty and they both realized at once that they were victims of gas. Accordingly they managed to get out of bed and make their way towards the door.

Enroute to the door, they both fell over two or three times and it was only by exerting their strongest effort that they managed to get the doors open and get outside to the fresh air.

The air at once gave them strength but neither was able to call for help, and they lay on the porch for over an hour gradually getting their strength back. All this time they thought of the aged woman, Mrs. Malene, who was upstairs in their home but they did not have the strength to go to her assistance until about an hour later. Then Mr. Conger made his way upstairs and found her overcome and in a bad shape. He raised the windows and the fresh air revived her in a short time.

With only 29,000,000 cattle, as compared with 71,000,000 in the United States, Argentina is in a position to maintain her export trade in beef by reason of the small population (7,000,000), and consequently limited domestic consumption of beef in that country. Whether or not expansion of beef

There is quite an extensive area well suited to, and at present partially used for, the growing of corn, but as yet, as probably for some years to come, this product will be either exported, or used for horse, dairy cow, and pig feeding. Only the flat varieties are grown generally. If the time ever comes when slaughterers will pay a sufficiently high premium for corn-fed beef, it is believed the country can produce ample for this purpose.

### Wanted—Woman.

For a good many years now all civilized nations have had the census, in order to determine scientifically the approximate conditions of population throughout the world.

Statistics relating to the sexes in different countries.

The population of the world is estimated to be 1,700,000,000, and the proportion is said to be 1,000 men and 950 women.

The proportion varies considerably according to the region. In Europe there are, for each 1,000 men, 1,037 women; in Africa, 1,015; in America, 964; in Asia, 961; in Australia, 937.

The maximum feminine population is in Uganda, where there are 1,467 women to each 1,000 men, and the minimum in the gold countries of Alaska and in Malaysia, where there are found only 391 and 553 women, respectively to each 1,000 men. —Harper's Weekly.

## GOTHAM TAX OATHS HONEST

His Securities Had Been Taxed Automatically, Affirmed Carnegie.

### SIMILAR LAW NEEDED HERE

Legislators Should Heed Advice of People and Submit Amendment Permitting Such Reform.

Mr. Carnegie has published a timely and enlightening statement concerning his misunderstood action in "swearing off personal taxes," says the Chicago Record-Herald. That phrase has an unpleasant sound everywhere, but a law statute—and a wise one—has given it a meaning in New York that is free from objectionable connotations.

The so-called secured debt law is an extension of the mortgage recording act. It enables holders of bonds to register them and pay, once for all, a tax equal to one-half of one percent of their face value. Such registration and payment exempt them from the local personal property tax, which, as elsewhere, is confiscatory and therefore generally unenforceable, except in the case of widows, orphans and unusually conscientious persons.

The enactment of the secured debt law was a great step forward. It will bring more revenue than the general property tax did, and it will do away with hypocrisy, perjury and gross unfairness.

We need a similar statute in Illinois. We have the evils which that law is designed to cure. Bonds and stocks largely escape taxation here, and assessors are driven to guess and tax blindly. Before, however, we can modify the general property tax and treat intangible personality as a distinct form of property for revenue purposes, we must amend our constitution. The people have advised the legislature to submit such an amendment, and this advice should be carried out. Opposition based on prejudice, ignorance and irrational fear should be vigorously resisted and defeated.

### A GREAT AND URGENT NEED.

What legislative need of Illinois is greater than the need for a fair taxing law, asks the Canton (Ill.) Daily Ledger.

The existing law discourages, poor men from buying homes to be paid for as they save the money. It taxes the possessor of the property's whole assessed value, however small may be his equity. He pays on the whole value, even though the holder of a mortgage is taxed on half, two-thirds, three-fourths or nine-tenths of that value. The buyer of the home is taxed on what he owns and taxed on what he owes. He is taxed because he has a laudable ambition.

The existing law discourages the locating of manufacturing in Illinois. It taxes not only the factory buildings, machinery, materials and prod-

uct, but also the capital stock which is but that value's paper representative.

Encouragement of home-owning and encouragement of labor-employing, town-building and country-building enterprises is vitally necessary to civic soundness and to general prosperity.

A law discouraging these things is opposed to public policy. It is a law that should not be allowed to stand.

What legislative need of Illinois is greater than the need for a fair tax law?

None—absolutely none!

### DO IT NOW.

Under our unworkable and antiquated tax laws, taxes on visible property, and therefore, say political economists, on the necessities of life have been going up at an unbearable rate year after year. The only possible respite in sight (for a few localities) lies in the recent Supreme court decision concerning the limitations of the dual law, and this will operate only for this year. If at all thereafter tax progress upward will continue as before unless something is done and done quickly. That something is the submission to the voters of a constitutional amendment permitting the classification of property. Without it the tax laws cannot be revised. If this legislature does its duty and submits the amendment the people will ratify it in 1914, and the next general assembly can proceed to enact relief legislation under it. If this legislature fails to submit this much-needed amendment on some pretext or other it will be July, 1917, at earliest before the people can get the relief they have so overwhelmingly demanded. The time to submit this amendment is now.

### Why Not Hold a State Tax Conference in Illinois?

A state tax conference in Illinois, patterned after those held in New York and other states, should be inaugurated and made an annual affair. It will prove especially valuable in conjunction with the adoption of a constitutional amendment permitting a general revision of our tax laws.

Submit the tax amendment, gentlemen of the general assembly, and square your account with the people.

### "Wise-acre."

"Wise-acre" has its origin in Ben Jonson's retort to a countryman who boasted interminably of his acres, till Ben said: "What signify to us your dirt and your clouds? Where you have an acre of land I have ten acres of wit." The countryman retorted by calling Ben "Good Mr. Wisacre." This is a good story, but perhaps the term wisacre comes from the corruption of the German welsenger, a wise sayor.
